

STATEWIDE TERM CONTRACT FOR LARGE TRACTORS AND MOWERS (75.1 – 225 PTO HP)

This is a statewide contract for the provision of agricultural tractors and mowers in the horsepower ranges listed. Any state agency, political subdivision, county government, municipal government, or other entity authorized to use state contracts may place orders.

When tractors and mowers are purchased as a unit, it will be the responsibility of the mower manufacturer to provide the mowers, install, and certify that the installation has been made at the mower factory or mower's authorized dealer on an approved make and model tractor and that the installation and operational loads do not exceed the tractor manufacturer limitations. State contract customers are not responsible for installing mowers and equipment on tractors. It will be the mower/mower dealer companies' responsibility and expense to arrange all installation of said equipment. All associated pricing for installation labor and/or supplies is included with the cost of the mower.

Each individual contract includes every model mower and/or tractor for the named Manufacturer's complete line of equipment in the PTO Horsepower ranges listed. Awards were made pursuant to each of the following categories of equipment:
